

Aim: To perform to set up or configure REST assured.

CODE:

```
package restAssurescripts;

import org.testng.annotations.Test;

import io.restassured.RestAssured;
import io.restassured.response.Response;

public class Script001SetupCheck {

    @Test
    public void setupCheck()
    {

        Response res = RestAssured.get("https://reqres.in/api/users/2");

        System.out.println(res.asString());

        System.out.println(res.getStatusCode());

    }

}
```

OUTPUT:
